There are many text-books on Electricity and Magnetism, both foreign and Indian, but few of them conform to the syllabi of the Indian Universities, especially those in the South. Since the introduction of the Three-year Degree Course in all the Indian Universities, the existing Text-books have become out of date in that they assume on the part of the students, a standard which is not attained by them during their Pre-University Course. Consequently, a text-book free from these shortcomings has become a necessity and this book has been brought out to satisfy the need.

TRIVENI is devoted to Art, Literature and History. Its main function is to interpret the Indian Renaissance in its manifold aspects.

TRIVENI seeks to draw together cultured men and women in all lands and establish a fellowship of the spirit. All movements that make for Idealism, in India as well as elsewhere, receive particular attention in these columns. We count upon the willing and joyous co-operation of all lovers of the Beautiful and the True.

May this votive offering prove acceptable to Him who is the source of the TRIVENI—the Triple Stream of Love, Wisdom and Power!

THE 'TRIVENI' SYMBOL

Padma (the Lotus) represents the purity of Love, Jyoti (the Flame) the light of Wisdom, and Vajra (the Thunderbolt of Indra) the splendour of Power.
